

SPONSORSHIP

For the first time in Georgia, GIACC (Georgia Indo-American Chamber of Commerce) is bringing manufacturers and service providers of Industrial Products, Components and Services from across India. Attendees from across USA will get to meet these exhibitors, network with other like-minded attendees, and participate in breakout sessions hosted by SME's (Subject Matter Experts) on how to navigate sourcing from India.

Whether you want to connect with exhibitors to help them start an operation in USA or make a case to attendees on how you can help them navigate roadblocks to international sourcing or be a part of the new emerging world economic order, one in which sourcing is moving away from China, become a sponsor of AITF 2026 and get ring side VIP access to one of the most exciting business event of 2026.

Call us. Together we can deliberate on what level would be most appropriate for your goals. We look forward to talking with you soon.
